Isla has utilised her coaching and counselling skills to develop strategies, actions and goals for personal and professional success for many of her clients.

She is highly capable of developing methods and practices for clients to effectively manage mental health issues. As a corporate facilitator for *Beyondblue; the national depression initiative*, she has provided management training to Managers, Supervisors, Team Leaders and HR professionals in helping people with mental health issues in their workplace.

After 15 years as a registered psychologist, she is highly regarded for her ability to resolve conflict using mediations and negotiation strategies based on the client's value systems.
